Re: AB 1099 (Calderon) Insurance: California Organized Investment Network (COIN) Program

PIFC Position: Support

The Personal Insurance Federation of California (PIFC) is a statewide trade association that represents five of the nation's largest insurance companies (State Farm, Liberty Mutual Insurance, Progressive, Mercury, and Nationwide, as well as associate member NAMIC) who write personal lines auto and home insurance in California. PIFC is pleased to support AB 1099, authored by Assemblymember Calderon.

The COIN program was created in 1996 as a public-private partnership by the Department of Insurance, the insurance industry, state government leaders, and community development organizations with the goal of helping to address the unmet capital needs for economic development and affordable housing in low-income urban and rural communities throughout California.

The COIN program is an important tool to generate economic opportunity in California's low-income urban and rural communities. Over the past two decades, the COIN program has generated more than \$335 million in community development investments that have supported small businesses, created jobs, improved access to quality health care, built affordable housing, and funded green projects – all in low-income communities throughout California. COIN-invested projects have resulted in capital being made available to small businesses in the form of loans, as well as investments in affordable housing projects, health clinics and other community development projects.

AB 1099 would extend the operation of a 12 member COIN advisory board until 2029. The board advises COIN on the best methods to increase investments while providing social benefits to vulnerable, underserved communities and providing fair market returns. For this reason, PIFC Supports AB 1099 (Calderon).

If you have any questions regarding PIFC's position, please contact Seren Taylor at (916) 442-6646.
