RE: AB 2715 (Reyes): Outsourcing  
Assembly Third Reading  
**PIFC Position: Oppose As Amended May 11, 2004**

The Personal Insurance Federation of California, representing insurers who write nearly 45% of all personal lines insurance sold in the state, including State Farm, Farmers Insurance, 21<sup>st</sup> Century, Safeco, and Progressive Insurance Companies, **opposes AB 2715 by Assembly Member Reyes.**

As amended, AB 2715 requires that a person or entity who conducts business in California and has a contract with a customer sales call center or a customer service telephone bank shall include a provision in the contract that requires a customer service employee to disclose at the beginning of each telephone call with or to a California resident whether the employee is located outside of the United States and whether the call is being monitored or will be reviewed by a person located outside of the United States.

AB 2715 will increase costs to businesses and consumers and create a disincentive for companies to locate in or expand their business in California. Although the amount of outsourcing done by insurers is small in proportion to their overall business, some companies may for economic reasons elect to have a call center located in another country. Many companies have call centers located in other states, due to the high costs of doing business in California and the efficiencies that are achieved through centralized call centers. AB 2715 will disproportionately burden California based companies, making them less competitive. The burden will be in the form of higher operations costs, due to extended phone calls. As a consequence, the cost of doing business will increase which in turn will result in increased costs for consumers.

Rather than increasing jobs in California, AB 2715 is likely to create an incentive for companies to move call center operations outside of California to other states. Instead of attempting to restrict outsourcing, it would be more productive, and create more jobs in the long run, for the state to focus on ways to reduce the high costs of doing business in California and improve the state's business climate.

For these reasons, **PIFC opposes AB 2715 and urges a "no" vote** when this bill is heard. If you have any questions, please contact Diane Colborn at (916) 442-6646.
